## Project Design Phase-II Technology Stack (Architecture & Stack)

| Date          | 22 October 2022                                 |  |
|---------------|---|--|
| Team ID       | PNT2022TMID03224                                |  |
| Project Name  | Project – Containment Zone alerting application |  |
| Maximum Marks | 4 Marks   |  |

## **Technical Architecture:**

## Table-1 : Components & Technologies:

| S.No | Component                       | Description  | Technology  |
|------|---------------------------------|--|---|
| 1.   | User Interface                  | How user interacts with application e.g. Web UI, Mobile App, etc.  | HTML, CSS, JavaScript etc.  |
| 2.   | Application Logic-1             | Logic for a process in the application   | Java / Python   |
| 3.   | Application Logic-2             | Logic for a process in the application   | IBM Watson STT service  |
| 4.   | Application Logic-3             | Logic for a process in the application   | IBM Watson Assistant  |
| 5.   | Database                        | Data Type, Configurations etc.   | MySQL, NoSQL, etc.  |
| 6.   | Cloud Database                  | Database Service on Cloud  | IBM DB2, IBM etc.   |
| 7.   | File Storage                    | File storage requirements  | IBM Block Storage or Other Storage<br>Service or Local Filesystem |
| 8.   | External API-1                  | Purpose of External API used in the application  | IBM Weather API, etc.   |
| 9.   | External API-2                  | Purpose of External API used in the application  | Aadhar API, etc.  |
| 10.  | Infrastructure (Server / Cloud) | Application Deployment on Local System / Cloud<br>Local Server Configuration:<br>Cloud Server Configuration: | Local, Cloud Foundry, Kubernetes, etc.                            |

## **Table-2: Application Characteristics:**

| S.No | Characteristics          | Description   | Technology                      |
|------|--------------------------|---|---------------------------------|
| 1.   | Open-Source Frameworks   | List the open-source frameworks used  | Fire wall                       |
| 2.   | Security Implementations | List all the security / access controls implemented, use of firewalls etc.  | Encryptions, IAM Controls, etc. |
| 3.   | Scalable Architecture    | Justify the scalability of architecture   | IBM DB2                         |
| 4.   | Availability             | Justify the availability of application   | Google map services             |
| 5.   | Performance              | Design consideration for the performance of the application (number of requests per sec, use of Cache, use of CDN's) etc. | IBM cloud                       |
